

FRONTIER ACCELERATE FOR AZURE

A clear, costed path to Azure.

An assessment and proof-of-value engagement that maps your server, database and application estate to Azure, with a plan, milestones and a costed architecture to reach production.

MIGRATE & MODERNIZE • IN PARTNERSHIP WITH MICROSOFT

THE OPPORTUNITY

Three questions this engagement answers

Cloud migration stalls without a plan. This engagement gives you a costed, milestone-based route from where you are to Azure production.

1**What's in our estate?**

A full assessment of your Windows, Linux, SQL and application workloads.

2**What will it cost?**

A costed target architecture and Azure pricing estimate.

3**How do we get there?**

A migration plan with dates and milestones to production.

WHAT THE ENGAGEMENT COVERS

From estate assessment to a migration plan

1**Assess the estate**

We map your physical and virtual servers, databases and applications, and their readiness for Azure.

2**Prove the value**

A proof of value validates the approach against your real workloads.

3**Design the target**

A solution architecture and Azure cost estimate for the future state.

4**Plan the migration**

A migration plan with dates and milestones to reach Azure production.

WHAT YOU GAIN

A confident, costed route to the cloud

1

A complete estate picture

Clarity on what you have and what is ready to move.

2

A costed business case

A target architecture and pricing you can budget against.

3

A migration roadmap

Dates and milestones to production, not just intent.

4

De-risked delivery

A validated approach before you commit to scale.
