

FRONTIER ACCELERATE FOR SECURITY

Cloud-scale threat visibility, switched on.

A deployment engagement that stands up Microsoft Sentinel or Defender for Cloud across your estate, giving you unified detection, response and cloud posture at scale.

SENTINEL & DEFENDER FOR CLOUD · WITH MICROSOFT

THE OPPORTUNITY

Three questions this engagement answers

As your cloud grows, so does your attack surface. This engagement gives you the visibility and response to match it.

1

What's happening in our estate?

Unified signal collection and analytics across your cloud and on-premises.

2

How fast can we respond?

Automation and orchestration that speed detection and response.

3

Is our cloud secure by design?

Posture management and workload protection across your subscriptions.

WHAT THE ENGAGEMENT COVERS

From blind spots to unified, automated defence

- 1 Assess the estate**
We review your environment and design the right Sentinel or Defender for Cloud approach.
- 2 Deploy and connect**
We configure connectors, analytics and automation (Sentinel) or posture management and workload protection (Defender for Cloud).
- 3 Tune and operationalise**
We tune detections and integrate the capability into how your team works.
- 4 Scale with confidence**
Ongoing visibility that grows with your cloud footprint.
