

FRONTIER ACCELERATE FOR COPILOT

See what Copilot can do, proven in your world.

A guided Envisioning and Proof of Concept engagement that shows your teams where Microsoft 365 Copilot and AI agents create real value, then proves it safely in your own environment, before you commit to scale.

ENVISIONING & POC • IN PARTNERSHIP WITH MICROSOFT

THE OPPORTUNITY

Three questions this engagement answers

Most organisations know Copilot matters. What they need is clarity: where it helps, whether it is safe, and what the return looks like. This engagement answers all three.

1**Where does Copilot help us?**

Which roles, teams and everyday workflows will feel the difference first, mapped to your business, not a generic demo.

2**Is it safe for our data?**

How Copilot and agents work within your security, governance and compliance boundaries, addressed from the start.

3**What is the business case?**

A grounded view of the value, the priorities and the adoption plan your leadership can act on with confidence.

WHAT THE ENGAGEMENT COVERS

From the art of the possible to proof in production

- 1 Envisioning and the art of the possible**
An interactive session that brings Copilot and agents to life for your leaders and teams, aligning everyone on the AI ambition and the outcomes that matter most.
- 2 Persona and use-case identification**
We map high-value personas and scenarios across Microsoft 365 Copilot, Copilot Studio and Agent 365, and prioritise the use cases with the strongest impact and feasibility.
- 3 Hands-on Proof of Concept**
A guided, hands-on lab and pilot that lets your people experience Copilot and agents against real work, proving feasibility and building internal advocates.
- 4 Business case and adoption roadmap**
We translate the findings into a clear business case and a prioritised adoption, governance and change plan, ready for your next leadership decision.

WHAT YOU GAIN

Confidence to adopt Copilot, backed by evidence

1

A prioritised use-case portfolio

The scenarios where Copilot and agents deliver the most value, ranked and ready to pursue.

2

A working proof of concept

Copilot and agents demonstrated against your real work, so value is seen, not just described.

3

A clear business case

The value story and priorities your leadership needs to approve a confident next step.

4

An adoption and change roadmap

A practical rollout plan with governance, security and change built in from day one.

WHAT IT COVERS

The Microsoft AI technologies we bring to life

PRODUCTIVITY

Microsoft 365 Copilot

AI woven through the apps your teams already use every day.

FRONTIER SUITE

Microsoft 365 E7

Early access to the newest Copilot and agent capabilities.

AGENTS

Agent 365 & Copilot Studio

Purpose-built agents that automate and accelerate real workflows.

TRUST

Governance & security

Compliance, data protection and responsible AI, considered throughout.

WHY BUI

Delivered by a partner Microsoft trusts

BUI is a Microsoft Azure Expert Managed Services Provider and a Microsoft Solutions Partner across all six cloud solution areas, with deep security and compliance expertise and a two-time Microsoft Country Partner of the Year (2023 and 2024). We take you from first look to confident adoption, and stay with you as you scale.

Ready to see it? Connect with your BUI account team to schedule your Copilot Envisioning and Proof of Concept.

See what Copilot can do for your teams.

A guided envisioning and proof of concept, proven in your environment, so your next AI decision is an easy one.
